⁸ Only available at select branches. ⁹ Paper notice charges may be assessed each time a transaction is presented, even if the transaction was previously rejected and a charge was previously assessed. This means you could be assessed multiple paper notice charges (including multiple NSF notice charges or a combination of multiple NSF notice charges and an overdraft notice charge) for one transaction you authorized. ¹⁰ You may be charged an Overdraft charge, as applicable, each time a transaction is presented for payment and the available balance is insufficient, even if the transaction was previously rejected and a charge was previously assessed. For example, a transaction you authorize (such as a check or an ACH debit) may be presented or submitted for payment multiple times and Pillur will determine whether or not the available balance is sufficient to pay the transaction each time it is presented or submitted. This means you could be assessed multiple charges (including multiple NSF charges or a combination of multiple NSF charges and an Overdraft charge) for one transaction that you authorized. Note: It is the merchant (or other individual or entity), not Pillur, that determines when and through which payment channel to present or submit a transaction against your account (and whether to present or resubmit a transaction that was previously rejected). ¹¹ Overdrafts are protected with Balance Shield. Balance Shield allows members to overdraft their eligible checking accounts by \$50.00 or less with no charges assessed except for applicable paper notice charges.
