

International Wire Transfer Request

Please complete all fields, sign, scan, and then upload your completed form via the message center accessible by logging in to your account on the Pillur platform. You may be contacted for verification before the wire can be processed and sent. You agree that this verification process is a commercially reasonable security procedure. Funds are generally received at the other financial institution within five to seven business days. You may be required to pay additional fees if assessed by the receiving financial institution. You can cancel a wire by calling Pillur at 833-533-0678 within 30 minutes after submitting the payment and receive a full refund including assessed fees, unless the funds have been picked up or deposited. If a cancellation request is made after 30 minutes, Pillur will submit a reversal request to the payee's financial institution and make every attempt to retrieve the funds. However, there is no guarantee that the funds will be returned. Once received by the payee and/or payee's financial institution, the reversal of the wire is at the discretion of the payee's financial institution. Pillur cannot guarantee the response time of the payee's financial institution, and you may be required to pay fees assessed by other financial institutions if the reversal request is successful.
